3-Level Ventilation

3-Level Heating · up to 150°F

Fits Cats & Small-Medium Dogs

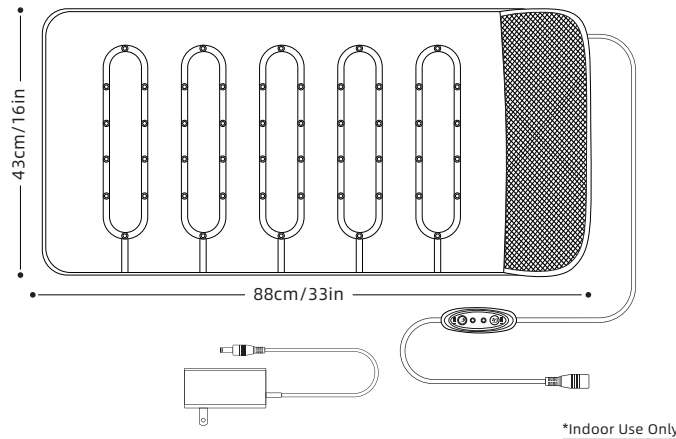

Easy Wipe-Clean Surface

Made for pets. Loved by families.

What's in the Box

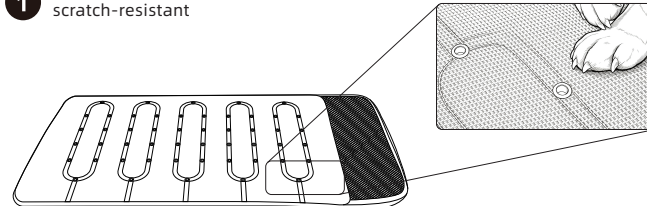

- ☐ Ventilated & Heating Mat ×1
- ☐ AC Power Adapter ×1
- ☐ Inline Controller (attached)
- ☐ Quick Start Guide (this manual)

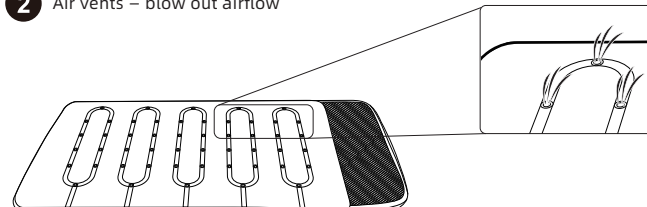

Get to Know Your Pad

TIP: Set the mat on a flat, dry surface and keep the air vents clear for the best airflow.

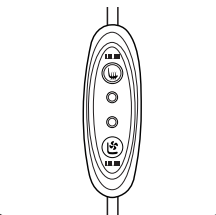

- 1** Textilene mesh surface – breathable & scratch-resistant

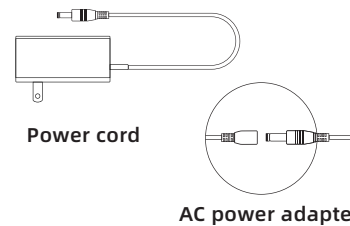

- 2** Air vents – blow out airflow

- 3** Inline controller – fan, heat

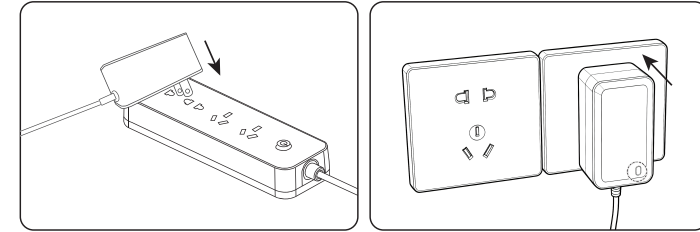

- 4**

How to Use – 3 Simple Steps

STEP 1 Connect

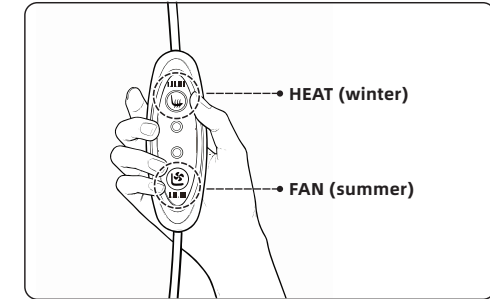

Plug the AC adapter into a wall outlet. The blue ring light turns on.

STEP 2 Choose your mode

HEAT (winter): press the HEAT button to cycle High (150°F) → Mid → Low (80°F) → Off.

FAN (summer): press the FAN button to cycle High → Mid → Low → Off.

STEP 3 Choose timed or continuous run (optional)

Press & hold the LIGHT button for 2 seconds to switch between the two run modes.

- **FLASHING light** = Timed Run – the fan shuts off automatically after 2 hours; heating shuts off after 50 minutes.
- **STEADY light** = Continuous Run – fan and heating keep running until you turn them off.

REMEMBER: The fan circulates room-temperature air to keep your pet's resting surface breathable – it does not produce cold air and cannot cool the room.

WARNING – READ BEFORE USE

- For indoor use only.
- Contains electrical components. Do NOT machine wash, soak, or immerse the mat in water.
- Unplug before cleaning and when not in use.
- Do not use with a damaged cord or adapter.
- Do not cover the mat while heating; keep air vents clear.
- Do not let pets chew the power cord.

CAUTION

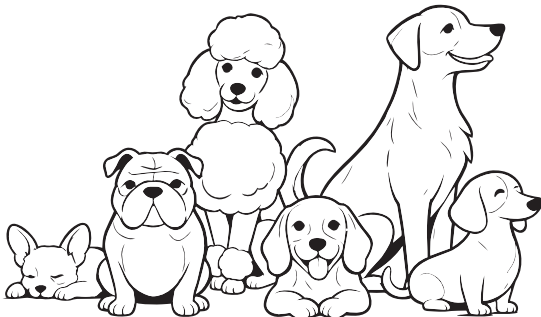

- Supervise your pet during first use – some pets take a few days to get used to the surface.
- Not for pets that chew or scratch electrical items.

CLEANING – 3 steps

- 1.Unplug the mat.
- 2.Wipe the surface with a soft cloth dampened with mild soapy water.
- 3.Let it dry completely before using again; avoid direct sunlight.

NOTE: Do not iron, bleach, or dry-clean. Store flat in a cool, dry place.

Frequently Asked Questions

Q1 Does this mat blow cold air?

No. The built-in fan pulls in surrounding air and circulates room-temperature air for a breathable resting spot. It is not an air conditioner and won't lower the room temperature.

Q2 Is it really for all seasons?

Yes. Use Fan mode in summer for airflow and Heat mode (80-150°F) in winter for gentle warmth.

Q3 What size pets does it fit?

33"×16" fits cats, small dogs, and medium breeds such as Corgis, Bulldogs, Chihuahuas and Pomeranians. For large breeds, measure your pet before purchase.

Q4 Is the surface scratch-resistant?

Yes. The PVC-coated textile mesh resists scratching, daily wear, and pet-hair buildup.

Q5 Can I machine wash it?

No. Wipe or spot clean only – never immerse the mat in water.

Quick Troubleshooting

No power / no blue light	→	Adapter plugged in? Outlet live? Cord fully inserted?
Fan not running	→	Fan mode on? Vents blocked by hair or dust? Clear the vents.
Feels not cold enough	→	Ventilation circulates room air; use in a cooler room.
Can't switch run modes	→	Hold the LIGHT button for 2 seconds to toggle timed / continuous run.

Specifications

Size	33 × 16 × 1 in	Weight	2.98 lb
Material	Textilene mesh (PVC-coated polyester)		
Heat range	80-150°F		
Fan	3 levels · Heat 3 levels		
Power	AC adapter (included)		
Suitable for	Cats, small & medium dogs · Use Indoor
